

My Experience at Charing Cross Hospital Neurosurgery Department

The neurosurgery programme at Charing Cross Hospital offered a valuable opportunity to witness complex surgeries firsthand. The neurosurgeons, especially Mr Nigel Mendoza, Joe Mariadas, Arthur Dalton and Ramesh Nair were knowledgeable and approachable, and I felt comfortable asking questions.

However, due to the nature of the observership, there were limited opportunities to directly participate in patient care. Overall, it was a great experience for those with a strong interest in neurosurgery, especially skullbase surgery. I would recommend this observership to anyone interested in learning more about neurosurgery, especially the technical nuances of skullbase surgeries.
