

Baxter Surgical Skills Workshop

Thursday 25th September 2025

Directors Box, Ashton Gate Stadium - 12:45-14:00

Please join Baxter for a 75-minute hands-on workshop where you will practice a resection of an intraparenchymal glioblastoma with epicentre in the frontal white matter using an Upsurgeon® model.

During the workshop you will have the opportunity to demonstrate Haemostasis Management and Dural Sealing using the Baxter portfolio of products.

This workshop is aimed at ST5 Trainees and above including Surgeons who want to learn more about Haemostasis Management and Dural Sealing

20 places are available on a first come, first serve basis. Please scan the QR code to register for the workshop.

Any queries please contact adam_rayner@baxter.com
