

NPH Webinar Series

December 3, 4:30 – 6:00 pm CET

iNPH at a CSF Center
Basic Management and advanced CSF Neuroscience

Universitätsklinikum Freiburg

Program:

- Introduction to the Freiburg CSF Center
- The patient in focus – navigating the clinical spectrum of iNPH
- From algorithms to insights: The Freiburg iNPH approach

This session will benefit from the moderation of Addenbrooke's Hospital (UK) multidisciplinary team, bringing additional clinical perspectives to enrich the discussion.

Speakers:

Jürgen Beck, Director, Department of Neurosurgery, Chair of the European Association of Neurosurgical Societies (EANS) CSF-section

Mukesch J. Shah, Senior Consultant in Neurosurgery, Head of the Department of Hydrocephalus, Pediatric Neurosurgery, Pituitary Surgery

Katharina Wolf, Senior Consultant in Neurology, Head of the CSF Circulation Outpatient Clinic

[The CSF Center at University of Freiburg](#) is recognized as a leading institution for the diagnosis, management, and research of cerebrospinal fluid (CSF) disorders, including the entire spectrum from hydrocephalus to spontaneous intracranial hypotension (SIH). The center offers comprehensive, multidisciplinary care, integrating advanced neurosurgical expertise with state-of-the-art diagnostic and therapeutic approaches. With a strong focus on research, innovation, and collaboration, the CSF Center provides individualized patient pathways and supports continuous education for healthcare professionals. Its commitment to excellence makes it a key reference point for both patients and clinical teams across Europe.

AGENDA 2025-2026

November 11, 4:00 – 5:30 pm CET

Assessment for intervention in iNPH: delivering diagnostics at scale
Addenbrooke's Hospital, Cambridge – UK

November 20, 4:30 – 6:00 pm CET

Idiopathic normal pressure hydrocephalus: a streamlined six-step algorithm
Università degli Studi di Brescia, ASST Spedali Civili di Brescia – Italy

December 3, 4:30 – 6:00 pm CET

iNPH at a CSF Center – Basic Management and advanced CSF Neuroscience
University of Freiburg – Germany

January 14

NPH patient follow-up and long-term management
Hôpital Beaujon, Clichy – France

February 11, 5:30 – 7:00 pm CET

NPH treatment and complication IRCCS Istituto delle Scienze Neurologiche,
Ospedale Bellaria, Bologna – Italy

March (date TBC)

From Ideas to Insights. A closing conversation to reflect on what inspired you, what you're exploring, and what you'd like to understand better.

NPH Webinar Series

Who is it for?

The NPH Webinar Series is open to all healthcare professionals involved in the diagnosis, treatment, and long-term management of Normal Pressure Hydrocephalus (NPH). This includes, among others: neurologists, neurosurgeons, geriatricians, neuroradiologists, neuropsychologists, physiotherapists, and rehabilitation specialists. The series is designed to reflect and support the multidisciplinary nature of NPH care.

How to register

Participation is free of charge. Registration is required to access the live sessions and recordings.

**Register now to join the NPH Webinar Series -
Click or scan the QR code here to secure your spot.**

Platform

The webinars will be hosted on Zoom. Access details will be sent to registered participants prior to each session.

Can't attend live?

All sessions will be recorded. The recordings will be made available to all registered participants, even if they are unable to attend the live event.

Interactive format

Each webinar includes time for live Q&A and open discussion, giving participants the opportunity to ask questions and share experiences.
