

HANDS-ON EXPERIENCE PIEZOSURGERY® IN CRANIAL AND SPINAL PROCEDURE

DR VENKAT IYER - CONSULTANT
NEUROSURGEON AT BRISTOL
SOUTHMEAD HOSPITAL

join us!

WORKSHOP AGENDA

- 15 min | Theoretical Introduction
Overview of PIEZOSURGERY® technology and its applications in cranial and spinal procedures.
- 60 min | Hands-on Session
Practical training on cranial and spinal models, focusing on suboccipital craniectomy and cervical laminotomy using Mectron PIEZOSURGERY®.
- 15 min | Q&A Session

WORKSHOP DESCRIPTION

This hands-on workshop offers participants the opportunity to test Mectron PIEZOSURGERY® technology on realistic cranial and spinal models. Through practical exercises in suboccipital craniectomy and cervical laminotomy, participants will experience the precision, control and selective bone-cutting capabilities of the technology.
