

## ELECTRONIC POSTERS (as at 31st July)

These will be displayed throughout the meeting on Electronic Poster Boards  
and on the Conference App

Code	Title	Presenter	Unit
<b>Allied Health</b>			
<b>AH -1</b>	AHP-led development of the Brain Injury Integrated Care Pathway ("BI-ICP") to standardise assessment and treatment of inpatients within a secondary care setting without on-site neurosurgery input – an implementation plan.	Naomi Deakin	East of England Neurosurgery Network (EoE NN), Cambridge, UK
<b>AH -2</b>	Embedding Patient Voice in Neurosurgical Quality Improvement: A Nurse-facilitated and Community-Led Approach to Communication and Continuity of Care	Daniela Caputo	East of England Neurosurgery Network (EoE NN), UK
<b>AH -3</b>	Diversifying the Neurosurgery Workforce: Developing the Advanced Clinical Practitioner (ACP) service.	Lydia Leedham	Imperial College Healthcare NHS Trust, London, UK
<b>Basic Science</b>			
<b>BS -1</b>	SOX2 Enhances Glioblastoma Aggressiveness and Immune Escape in an Immunocompetent Mouse Model	Erika Lo	Centre for Regenerative Medicine, Edinburgh, UK
<b>BS -2</b>	Circumferential Spinal Cord Interface Enables High-Fidelity Motor Intent Decoding and Multimodal Sensory Discrimination	Salim El Hadwe	University of Cambridge, UK
<b>BS -3</b>	Understanding the role of TEAD inhibition in SHH subtype medulloblastoma	Daniel Miller	University of Plymouth, UK
<b>BS -4</b>	Multiscale Analysis of the Adult Human Brain in Health and Disease Using Hierarchical Phase-Contrast Tomography	Matthieu Chourrout	University College London, UK
<b>BS -5</b>	Maternally derived mesenchymal stem cells for spinal cord injury: a review of the literature	Antonia Vogt	University of Cambridge, UK
<b>CSF</b>			
<b>CSF -1</b>	Evaluating External Ventricular Drain Infection Rates Following Protocol Revision: A Retrospective Audit at a Tertiary Neurosurgical Centre	Moez Karim	North Bristol Trust, UK

<b>CSF -2</b>	Optimising Management of Refractory Idiopathic Intracranial Hypertension: A Shuntogram-Based Algorithm for Surgical Decision-Making	Zhikai Li	University of Cambridge, UK
<b>CSF -3</b>	Does intraoperative real-time ultrasound guided external ventricular drain insertion increase operative duration compared to the anatomical landmark technique?	Jay Kotecha	Queen's Medical Centre, Nottingham, UK
<b>CSF -4</b>	A case of severe spontaneous intracranial hypotension presenting in extremis, treated successfully with a targeted fluoroscopic-guided high thoracic epidural blood patch: an oft missed diagnosis	Mohammad Abuzenah	Sheffield Teaching Hospitals, UK
<b>CSF -5</b>	The Silent Virus: Sudden Sensorineural Hearing Loss as the First Clue to Varicella Zoster Encephalitis	Christian Chess	Bath Royal United Hospital, UK

#### Functional

<b>F - 1</b>	Side effects limiting ceiling of stimulation in VNS (Vagus Nerve Stimulation) and MRI conditionality of VNS in clinical practice: A Retrospective study from a Major Neurosurgical Trauma Centre	Juliet Johnson	Royal London Hospital, UK
<b>F - 2</b>	Retrospective single centre evaluation of stereo electroencephalography.	Mohamedamin Ahmed	Salford Royal Hospital NHS, UK
<b>F - 3</b>	Examining Eslicarbazepine for the treatment of Trigeminal neuralgia	Bay Hill	Cardiff University, UK
<b>F - 4</b>	Integration of Intraoperative Imaging with Robot-Assisted DBS in Parkinson's Patients: A Systematic Review and Meta-Analysis	Aliyah Sattar	University of Edinburgh, UK
<b>F - 5</b>	Autoguide Robotic Implantation of Depth Electrodes: Accuracy and surgical outcomes	Oliver Kennion	Royal Victoria Infirmary, Newcastle, Upon, Tyne
<b>F - 6</b>	Distributed Graph-Based Tractography in Terabyte-Scale Imaging for High-Resolution Deep Brain Connectomics	Andrew Keenlyside	University College London, UK
<b>F - 7</b>	Deep Brain Stimulation: a new approach to informed consent and shared decision making.	Chiara Zancanella	University of Pavia, Pavia, Italy
<b>F - 8</b>	A Review of the Literature on Microvascular Decompression in The Management of Trigeminal Neuralgia	Mubashshir Ahmad	King's College Hospital NHS Foundation Trust, London, UK

#### General

<b>GN -1</b>	Improving Ward Round Documentation in Neurosurgery	Bilal Benzahia	Aberdeen Royal Infirmary, UK
--------------	--	----------------	------------------------------

<b>GN -2</b>	Adherence to national clinical practice guidelines in the management of Chronic Subdural Hematoma and relationship to length of stay and survival.	Ravindri Jayasinghe	University Hospitals, Plymouth, UK
<b>GN -3</b>	“If it wasn’t documented, it didn’t happen” - A Quality Improvement Project aimed at Senior Review Documentation	Bilal Benzahia	Aberdeen Royal Infirmary, UK
<b>GN -4</b>	Influence of Drain Placement (Subdural vs. Subgaleal) on Postoperative Complications and Length of Stay in Patients Undergoing Surgery for Subdural Hematoma	Adam Vacek	Aberdeen Royal Infirmary, UK
<b>GN -5</b>	Staff perceptions of the benefits of a new Neurosurgery-Geriatric in-reach service.	Ololade Tijani	Queen's Medical Centre, Nottingham, UK
<b>GN -6</b>	Utilising 7T MRI in the Planning of SEEG	Maisie Sumner	Royal Manchester Children's Hospital
<b>GN -7</b>	The Quality of Discharge Summaries in a Tertiary Neurosurgery Centre: an NHS Service Improvement Audit	Jahard Aliaga-Arias	King's College Hospital NHS Foundation Trust
<b>GN -8</b>	Mitigating Surgical Site Infections in Neurosurgery: A Two-Cycle Audit of Compliance with NICE Guidelines and the Impact of Targeted Interventions	Sajjad Saghebdoust	Razavi Hospital, Mashhad, Iran
<b>GN -9</b>	Day of Surgery vs Day Before Surgery Admission for Elective Neurosurgical Cases: Comparative Analysis of Patient Preference and Impact on Cancellation Rates	Gillian Pace	National Hospital for Neurology and Neurosurgery, London, UK
<b>GN -10</b>	Implementation of a Headrest Safety Check in Neurosurgery	Susana Freixo	Queens' Medical Centre, Nottingham, UK
<b>GN -11</b>	Extracranial Causes of Subarachnoid Hemorrhage: A Systematic Review of Aetiologies, Presentations, and Outcomes	Chew Shun Wen	University of Edinburgh, UK
<b>GN -12</b>	Infection Rates and Risk Factors in External Ventricular Drains: A Retrospective Audit from a Major Neurosurgical Trauma Centre	Bilal Benzahia	Royal London Hospital, UK
<b>GN -13</b>	Cranial nerve glioblastoma: A literature review	Tahera Rahman Mim	The Royal Infirmary of Edinburgh, UK
<b>Global</b>			
<b>GL -1</b>	Traumatic brain and spine injury, a major public health problem in Nepal, experience from a government hospital	Prabhat Jha	Province Hospital Surkhet, Nepal

<b>GL -2</b>	Understanding Community and Patient Engagement and Involvement (CEI) Interventions in Acquired Brain and Spinal Injuries (ABSIs): A Realist Review	Abdel-Rahman Abdel-Fattah	University of Cambridge, UK
<b>Neurovascular</b>			
<b>N -1</b>	Intracerebral Haemorrhage Management in a High-Volume Neurovascular Centre: A Three-Year Review and Evolving Surgical Strategy	Fatemeh Hedayat	Oxford University Hospitals NHS Foundation Trust, UK
<b>N -2</b>	Intradural extra-medullary Spinal Cavernoma T11-L4 : A rare phenomenon	Thaaqib Nazar	University Hospital Coventry and Warwickshire, UK
<b>N -3</b>	The Jugular Compression Syndrome – Review of the Literature and Case Report	Adam Vacek	Aberdeen Royal Infirmary, UK
<b>N -4</b>	Outcomes and timings of decompressive craniectomy for malignant MCA stroke. A two-centre experience over five years: time is brain, until it isn't.	Selma Al-Ahmad	Hull University Teaching Hospital NHS Trust
<b>N -5</b>	Application of MR-Perfusion in Case of Ischemic Stroke	Elhussein Noureldin	Lithuanian University of Health Sciences, Kaunas, Lithuania
<b>N -6</b>	Diagnosis of cerebral vasospasm in subarachnoid hemorrhage patients – critical assessment of neurocritical care monitoring strategies	Iftakher Hossain	Imperial College, London,UK
<b>N -7</b>	Spontaneous Occlusion of Brain Arteriovenous Malformations	Yusor Al-Nuaimy	Ajman University, Ajman, UAE
<b>N -8</b>	Moyamoya Angiopathy: Evaluation of epidemiological methods in incidence studies	Michael Poon	Southmead Hospital, North Bristol NHS Trust, UK
<b>N -9</b>	Unusual Presentations of Vertebral Artery Dural Arteriovenous Fistulas: A Two-Case Report and Literature Review	Asad Abbas	Nottingham University Hospital, UK
<b>N -10</b>	Retrospective Audit of Follow-Up Templates for Standard Aneurysm Cases in Neurovascular MDTs: A Time Optimization Assessment	Antonia Malli	North Bristol NHS Trust, UK
<b>N -11</b>	The effect of milrinone on delayed cerebral ischaemia in aneurysmal subarachnoid haemorrhage: a systematic review	Shalwin Mathew	University College London, UK
<b>N -12</b>	Endoscopic evacuation of hypertensive Basal ganglia bleed and its effect on Long-term functional outcomes	Sreevishnu Kalaga	St Mary's Hospital, London, UK

<b>N -13</b>	Microsurgical Clipping Versus Endovascular Coiling for Distal Anterior Cerebral Artery Aneurysms: A Meta-Analysis of Double-Armed Comparative Studies	M Elmarawany	North Bristol NHS Trust
<b>N -14</b>	The Mini-Pterional Advantage: Reduced Morbidity and Operative Time in Aneurysm Clipping	Leif Moreau	North Bristol NHS Trust
<b>Oncology</b>			
<b>O -1</b>	Patients' experience of the neuro-oncology journey: a single-centre evaluation and recommendations	Vassili Crispi	University of Birmingham, Birmingham, UK
<b>O -2</b>	Solitary Bone Plasmacytoma of the Spine: A Systematic Review	Weronika Nocun	Centre for Spinal Studies and Surgery, Nottingham, UK
<b>O -3</b>	Mitochondrial DNA in Glioblastoma: A Systematic Review	Bilal Amin	University of Cambridge, UK
<b>O -4</b>	The Role of Preoperative Thrombocytic Factors on Survival in patients with Glioblastoma: A Meta-Analysis and Synopsis of the Literature	Yash Akkara	Imperial College School of Medicine
<b>O -5</b>	The usefulness of [11C]methionine PET in aiding the differentiation of tumour recurrence from post-radiation related change	Fatmah Noureldin	King's College London, UK
<b>O -6</b>	Analysis of Reoperation Risk Factors in Oncologic vs. Non-Oncologic Patients Undergoing Spinal Surgery	Allon Ben-Uri	Rabin-Beilinson Medical Center, Israel
<b>O -7</b>	Multiple Ependymomas: Insight from a Case Series	Joseph Graham	Royal Sussex County Hospital
<b>O -8</b>	Cranial Meningiomas - A comprehensive institutional review over a decade in an Indian population	Manoj Kumar Manivel	University Hospital Plymouth, UK
<b>O -9</b>	Language testing in awake brain surgery for tumour resection: current perioperative practice in the United Kingdom	Sonia Mariotti	North Bristol NHS Trust
<b>O -10</b>	Awake Craniotomies for Epileptic Gliomas: A Prospective Study of Intraoperative and Postoperative Seizure Control and Prognostic Factors	Sajjad Saghebdoust	Razavi Hospital, Mashhad, Iran
<b>O -11</b>	Diagnostic Correlation of MRI, Intraoperative, and Histopathological Findings in Pediatric Posterior Fossa Tumors	Muhammad Nawaz Khan	Lady Reading Hospital, Peshawar, Pakistan

<b>O -12</b>	Repetitive brain tumour biopsy in high-grade gliomas: patients' perspective on acceptability and research.	Vassili Crispi	University of Birmingham
<b>O -13</b>	Outcomes Following First Reoperation in Recurrent Meningioma: A Single-Centre Experience.	Munashe Veremu	University of Cambridge, UK
<b>O -14</b>	Minimally Invasive Tubular Retractors : A Case series evaluating Efficacy, Safety and Functional Outcomes for Brain tumour Surgeries.	Neha Jadhav	Northern Care Alliance, Manchester, UK
<b>O -15</b>	Frailty Correlates with Worse Outcomes and Survival Following Meningioma Resection in the Elderly: A Propensity-Score Matched Analysis Employing Baseline Functional Status	Yash Akkara	Imperial College London, UK
<b>O -16</b>	Novel Surrogate Indicators of Intracranial Meningioma Consistency and Outcomes Following Resection	Yash Akkara	Imperial College London School of Medicine
<b>O -17</b>	Piloting a 5-Facet Approach to Functional Outcome Assessment in Post-Operative Glioblastoma Patients: a Prospective Single Centre Cohort Study (Functional-GB)	Emily Bligh	Wessex Neurological Centre, Southampton, UK
<b>Paediatrics</b>			
<b>P -1</b>	Clinical Audit of Time from Referral-To-Admission for Paediatric Brain Tumour Patients at Addenbrookes Hospital, Cambridge University Hospitals (CUH)	Abdel-Rahman Abdel-Fattah	Cambridge University Hospital. UK
<b>P -2</b>	Factors predicting the response to vagus nerve stimulation (VNS) in pediatric patients with drug-refractory epilepsy: a systematic review and meta-analysis	Siddarth Kannan	University of Liverpool, UK
<b>P -3</b>	Outcomes Following Foramen Magnum Decompression in Paediatric Chiari I Malformations: A 10-Year Retrospective Case Series	Francesca d'Agnese	Oxford University Medical School, Oxford, UK
<b>P -4</b>	Giant Intracranial Aneurysms in Paediatric patients: A literature review of treatment outcomes, complications and Long-Term Follow-up	Declan Bradley	University of Edinburgh
<b>P -5</b>	Intervention timing and its relation to complication rates for Open vault cranial remodelling surgery (OVCRS)	Drew McPherson	Edinburgh University Neurological Society, Edinburgh, UK

<b>P -6</b>	Small Scale Cost benefit analysis of shunting paediatric patients early for elective vs emergency for hydrocephalus	Priya Kadam	Department of Clinical Neurosciences, Edinburgh, UK
<b>P -7</b>	Postnatal Surgical Myelomeningocele Repair at a UK Tertiary Neurosurgical Centre: An 8-Year Service Evaluation	Rahul Shah	Cambridge of Cambridge, UK
<b>P -8</b>	Blood Loss in Definitive Surgery Following Conservative Versus Surgical Initial Haematoma Management in Paediatric AVMs	Mahdi Sharawi	Royal Manchester Children's Hospital, UK

#### Peripheral Nerve

<b>PN -1</b>	Facial Nerve Reanimation After Vestibular Schwannoma Surgery: A Case of Successful Lateroterminal Hypoglossofacial Anastomosis	Abdelali Yahia	Regional University Hospital, Ouargla, Algeria
<b>PN -2</b>	Peripheral Nerve Sheath Tumour Resection at a UK Tertiary Neurosurgical Centre: A 9-Year Service Evaluation	Rahul Shah	Cambridge University Hospitals NHS Trust

#### Skull Base

<b>SB -1</b>	Hypervascular Vestibular Schwannoma: A Single Centre Case Series	Ashan Jayasekera	Oxford University Hospitals
<b>SB -2</b>	Safety and Efficacy of Endoscopic Transsphenoidal Surgery in Octogenarians: A Case Series	Ahmed Naji Mansoor	Cardiff University, UK
<b>SB -3</b>	The use of endoscopic dural repair following base of skull surgery: a systematic review	Nadun Danushka	National Hospital of Sri Lanka, Colombo, Sri Lanka
<b>SB -4</b>	OCTOPit Pilot Survey: Advocating for a Multicenter Trial to Enhance Optical Coherence Tomography in Managing Asymptomatic Pituitary Adenomas	Sanjeev Pattankar	Institute of Neurosciences, Glasgow, UK
<b>SB -5</b>	Correlation Between Lesional Volume and Postoperative Cognition in Surgically Treated Skull Base Meningiomas: A Single-Centre Experience	Dorina Roy	Royal Preston Hospital
<b>SB -6</b>	Digital Health Technologies (DHT) for longitudinal assessment of balance dysfunction in Vestibular Schwannoma (VS): A Literature Review	Sanjeeva Jeyaretna	Oxford University Hospitals
<b>SB -7</b>	Functional Outcomes After Neurosurgical Intervention for Head and Neck Paragangliomas: A Systematic Review	Adharsh Suraj Prasad	University of Edinburgh

<b>SB -8</b>	Effectiveness of minimally invasive techniques in base of skull meningioma excision: a systematic review	Nadun Danushka	National Hospital of Sri Lanka, Colombo, Sri Lanka
<b>SB -9</b>	Multi-portal approach to resection of large Left sided Trigeminal schwannoma	Siddarth Kannan	University of Central Lancashire, Preston, UK
<b>SB -10</b>	Intranasal Coil Protrusion After ICA Embolization following Endoscopic TENTS surgery : A case report and literature Review	Vedang Mahajan	All India Institute of Medical Sciences

<b>Spine</b>			
<b>S -1</b>	Effectiveness and Usefulness of the Tokuhashi Scoring System in Metastatic Spinal Cord Compression Management	Apostolos Lagaras	Manchester Centre for Clinical Neuroscience
<b>S -2</b>	Efficacy of Spinal Instability Neoplastic Score in Managing Patients with Metastatic Spinal Cord Compression	Mohammad Saleemi	Manchester Centre for Clinical Neurosciences
<b>S -3</b>	Early experience with Minimally Invasive Tubular discectomy for lumbar disc pathology	Dorina Roy	Royal Preston Hospital
<b>S -4</b>	An Audit of Spinal Injuries in Patients Aged 75 and Above	Jenny Zhang	University of Cambridge
<b>S -5</b>	Full Power Assisted Versus Manual Pedicle Screw Insertion: A Systematic Review.	Girish Kulkarni	Queens Medical Centre
<b>S -6</b>	Extensive Spinal Epidural Abscess Evacuated with Single Level Laminectomy and Catheter Irrigation	Rudra Shah	University Hospitals Coventry & Warwickshire NHS Trust
<b>S -7</b>	Cauda Equina Syndrome Secondary to Intradural Haematoma Following Osteopathic Manipulation in an Anticoagulated Patient.	Mubashshir Ahmad	King's College Hospital
<b>S -8</b>	Does Pelvic Fixation in Neuromuscular Scoliosis Correction Affect Radiological and Functional Outcomes? A Systematic Review and Meta-analysis.	Weronika Nocun	Nottingham University Hospitals NHS Trust
<b>S -9</b>	Outcome of Surgically Treated Intradural Extramedullary Spinal Tumours: A Single-Centre Experience Over a Decade	Adam Haque	University of Manchester
<b>S -10</b>	Is Povidone-Iodine Irrigation in Spine Surgery a Game-Changer? A Meta-Analysis of RCTs on Surgical Site Infection Prevention	Girish Kulkarni	Queens Medical Centre

<b>S -11</b>	Local implementation of GIRFT guidance can reduced Cauda Equina Syndrome (CES) related service pressures without negatively impacting diagnosis – a retrospective observational study within a District General Hospital	Sai Viswan Karthigesu Thiagarajah	Northern Care Alliance
<b>S -12</b>	Factors associated with the outcomes of lumbar discectomy surgery: A single center experience	Nadun Danushka	National Hospital of sri Lanka, Colombo, Sri Lanka
<b>S -13</b>	An Audit Assessing the Clinical Efficacy of Thoraco-Lumbo-Sacral Orthosis (TLSO) Bracing for AO Grade A1 Acute Lumbar Fractures	Gayathri Arul Selvan	St George's Hospital
<b>S -14</b>	Clinical Presentation, Surgical Management, and Outcomes of Spinal Meningiomas: A Single-Centre Retrospective Analysis of 111 Cases	Saamir Mirza	Wessex Neurological Centre
<b>S -15</b>	Operative strategies for symptomatic thoracic disc herniations: A single centre retrospective analysis	Mesi Mathew	Queen Elizabeth Univeristy Hospital, Glasgow
<b>S -16</b>	Neurological Deficits and Complications in Surgical and Conservative Treatment of Spondylodiscitis – a Systematic Review and Meta-Analysis	Zekiye Karagozlu	Imperial College London School of Medicine
<b>S -17</b>	Outcomes of Surgically Treated Intramedullary Spinal Tumours: A Single-Centre Experience Over a Decade	Adam Haque	University of Manchester
<b>S -18</b>	Subsidence After Anterior Cervical Discectomy and Fusion: A Comparative Analysis of Three Interbody Cage Designs	Elle Hayes	North Bristol NHS Trust
<b>S -19</b>	Evaluating North Bristol NHS Trust’s Compliance with GIRFT Guidelines and Their Impact on Cauda Equina Syndrome Pathway Outcomes	Mohamed Soliman	North Bristol NHS Trust
<b>S -20</b>	Does Disc Consistency Matter? A Comparative Series on Calcified and Soft Thoracic Disc Herniations	Girish Kulkarni	Queens Medical Centre
<b>S -21</b>	The impact of aging on locomotor recovery in preclinical models of traumatic spinal cord injury: a systematic review	Zhikai Li	Cambriske University Hospital
<b>S -22</b>	The clinical utility of intraoperative neuromonitoring in anterior cervical discectomy and fusion: A systematic review	Claudia Kate Au- Yeung	University Hospital of Coventry and Warwickshire
<b>S -23</b>	Rethinking Dural Tears: Do Minimally Invasive Techniques Outperform Open Surgery?	Weronika Nocun	Queens Medical Centre, Nottingham, UK

<b>S -24</b>	Erector Spinae Plane Block vs. Caudal Block in Children - Systematic Review and Meta-Analysis	Weronika Nocun	Queens Medical Centre, Nottingham, UK
<b>S -25</b>	Two Cords, Three Operations: Multistage Surgical Management of Adult Diastematomyelia with Lumbosacral Instrumentation	Oliver Burton	National Hospital for Neurology and Neurosurgery
<b>S -26</b>	QIP on the rate of day case Lumbar decompression/discectomies at Salford Royal Hospital (Northern Care Alliance).	Maalavisha Sankar	University of Manchester
<b>S -27</b>	Risk factors for Surgical Site Infections (SSIs) after Spinal Surgery: a systematic review and meta-analysis	Sophie Rosenke	Lancaster University
<b>S -28</b>	A Characterisation of Spinal Lesions in a Cohort with Neurofibromatosis Type 1 and Dural Ectasia	Moska Sial	Salford Royal Hospital
<b>S -29</b>	Heterogeneity in Reporting of Baseline Variables in the Surgical Management of Spinal Cord Cavernous Malformations: A Systematic Review	Tomas Ferreira	St Thomas' Hospital, London
<b>S -30</b>	ACDF Self locking cages - experience of over 300 patients	Ravindra Nannapaneni	Imperial College London
<b>S -31</b>	A patient perspective of the consent process in Spinal Surgery	Anna Bjornson	Sheffield Teaching Hospitals, UK
<b>S -32</b>	Pregnancy in Women with Spina Bifida: A Systematic Review of Maternal and Neonatal Outcomes and Neurosurgical Implications for Clinical Management	Nicholas Yip	Royal Infirmary of Edinburgh
<b>S -33</b>	Surgical Nuances For Safeguarding Anomalous Vertebral Artery During Atlantoaxial/Occipital-C2 Fixation in Complex CV Junction Pathologies – Operative Video Article	Amol Mittal	Queens Hospital, Romford
<b>S -34</b>	Successful Treatment of an Aggressive Vertebral Haemangioma with Radiofrequency Ablation and Laminectomy: A Case Report	Zhikai Li	University of Cambridge
<b>S -35</b>	recurrent single intradural extramedullary breast metastasis (case review and systemic review of literatures)	Aly Ahmed	University Hospital of Coventry and Warwickshire
<b>S -36</b>	Turning the Screw: Assessing the Impact of Full Power-Assisted vs. Manual Pedicle Screw Insertion in Spine Surgery.	Weronika Nocun	University of Nottingham

### Teaching and Training

<b>TT -1</b>	DVLA Advice in Neurosurgical Discharge Letters: automating	Aysha Iqbal	Cambridge University Hospital
<b>TT -2</b>	NeuroBridge: Assessing the Impact of a Digital Neurosurgical Education Model for Medical Students – A cross-sectional educational intervention study	Katarzyna Minta	East and North Herts Teaching NHS Trust, Stevenage, UK
<b>TT -3</b>	Experiences of successful candidates prior to ST1 training : the changing landscape of Neurosurgery in the UK	Priya Kadam	Royal Infirmary of Edinburgh
<b>TT -4</b>	Knowledge of External Ventricular Drainage among nursing officers in Neurocritical care	Nadun Danushka	National Hospital of Sri Lanka, Colombo, Sri Lanka
<b>TT -5</b>	What do Speech Therapists got to do with Neurosurgery: The Impact of an Interdisciplinary Simulated Hands-on Workshop for Aspiring Neurosurgeons	Claudia Kate Au-Yeung	University Hospital of Coventry and Warwickshire
<b>TT -6</b>	Wearable Technology for the Enhancement of Surgical Training: A Systematic Scoping Review	Honglin Zhu	King's College London

### Trauma

<b>T-1</b>	Bridging the Gap: A Closed-Loop Audit of CT Scan Utilization in Head Injury Patients	Sajjad Saghebdoust	Razavi Hospital, Mashhad, Iran
<b>T-2</b>	Outcomes of Postoperative Drainage Following Cranioplasty: A Systematic Review	Shangqing Yang	University of Cambridge
<b>T-3</b>	A Retrospective Cohort Study of Neurotrauma Admissions at a Major London Trauma Centre	Justin Colleen Co	Royal London Hospital
<b>T-4</b>	Decompressive Craniectomy in Trauma: What You Need to Know	Jesvin Sunny	Cambridge University Hospital NHS Foundation Trust
<b>T-5</b>	Rapid antimicrobial-impregnated 3D-printed negative mould technique for PMMA cranioplasty in emergent management of syndrome of the trephined	Talhah Chaudri	Good Hope Hospital, Birmingham
<b>T-6</b>	Management of concussion in para-athletes: a single-centre case series.	Arnav Singh	University of Birmingham, UK
<b>T-7</b>	12 month review of all E-scooter and E-bike referrals to national Neurosurgical referral center for Ireland	David Johnson	Beaumont Hospital, Dublin
<b>T-8</b>	Long term outcomes of cranioplasty in trauma survivors: A 10-year follow-up study	Nadun Danushka	National Hospital of Sri Lanka, Colombo, Sri Lanka

<b>T-9</b>	Patterns of acute neurosurgical presentations to two neurosurgical units before, during, and after the COVID-19 pandemic	Zhikai Li	Cambridge University, UK
<b>T-10</b>	Early Mobilisation in Chronic Subdural Hematoma: A Systematic Review and Meta-Analysis.	Youssef Chedid	University of Cambridge
<b>T-11</b>	Implementation of the CUH Trauma Unit Guidance for Inpatient Management of Adult Traumatic Brain Injury: a cross-sectional survey	Matthew Kingham	Cambridge University Hospital
