

# Tomorrow's Leaders

## Clinical Trials in Surgical Oncology: Two-day Workshop

*Monday 11 and Tuesday 12 May 2015*  
The Royal College of Surgeons of England

### Aimed at:

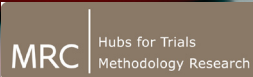

- » Trainees in surgical specialties with an interest in oncology
- » Early years consultants within 5 years of CCT
- » Any amount of prior research experience

### Registration includes:

- » Complementary GCP training session in programme
- » Contribution towards expenses for trainees
- » Lunch and refreshments

### Sessions include:

- » Breakout Sessions hosted by the NCRI clinical studies groups.
- » Getting started in trials research as a trainee or NHS consultant
- » Integrating surgical trials into a busy NHS department
- » Please can I have a research nurse?
- » Trial Design- what's so different about surgical trials?
- » Why do I need a trials unit?

Applications are made through your specialty associations –  
you will be contacted over the next few weeks.
